5. Student Research proposal: GERD and CRS, *Dr. Afaf and Dr. Bushra*, 6<sup>th</sup> year students

### Faculty Development Program

#### Team Based Learning (TBL) - Dr. Mohamed Alnibras

Today's topic is based on my presentation at the "TIPS of Medical Education" meeting. TBL is a structured form of small group learning that emphasizes student preparation out of the class and application of knowledge in class. For a summary of my talk, please refer to the **PDF attachment**

### Reader's Corner

#### Can Graviola herbal plant cure cancer? – Dr. Mohammad A. Shawir

Media reports that a Shepard's in Palestine, diagnosed with end stage carcinoma of the bladder, claimed complete cure after taking Graviola as an herbal treatment. His supervising doctor confirmed the complete resolution of cancer. Graviola plant is widely used in Saudi Arabia, Iraq, Syria and Palestine. Despite the minimal research, few side effects have been associated with Graviola in term of nerve damage and movement disorder. It is a high time to carry a wide scale scientific research on the value of this very common plant in University of Tabuk. For further reading, please refer to **PDF attachment**
