

FROM THE DEAN

## Greetings of peace!

The FAMS –Department of Nursing has remained steadfast in responding to the dynamic changes of the Nursing Profession so as to provide quality education and to improve the student clinical performance.

As OSCE is increasingly used in Nursing Education, the department took the initiative of compiling the general guidelines, protocols and policies in conducting this practical examination. It is confidently believed that OSCE is the most appropriate method in evaluating nursing clinical skills that will furnish the students necessary confidence to successfully passed this requirement in their clinical field. Moreover, it will enhance the skills and the capacity of the students to provide health care services from a holistic nursing perspective, thus, preparing for a highly qualified and competent nursing graduates in the Kingdom of Saudi Arabia.

I hope your stay in the Department of Nursing will be a fruitful and rewarding experience.

**Dr. Hamad Alamer**

Dean, Faculty of Applied Medical Sciences

**OBJECTIVE STRUCTURED CLINICAL EXAMINATION  
STUDENT HANDBOOK**

## Department of Nursing

### الرؤية Vision

التميز في تعليم التمريض والبحث العلمي و خدمة المجتمع.

Excellence in nursing education, research, and community services.

### الرسالة Mission

تخريج ممرضين أكفاء قادرين على تعزيز الرعاية الصحية من خلال معايير تعليمية عالية الجودة وأبحاث مبتكرة تلبى الاحتياجات الصحية للمجتمع.

To graduate competent nurses who are able to enhance healthcare services through high quality educational standards and innovative research that addresses the health needs of the community.

## MESSAGE FROM THE DEPARTMENT HEAD

To our students, welcome to the Department of Nursing!

For years, the department strives to provide quality education. It aims to shape the students to become competent and community oriented nurses in the future.

The Objective Structured Clinical Examination (OSCE) is an innovation from the traditional clinical examination. The administration and faculty believe that this is a better method of evaluating clinical competence.

This handbook is designed to guide the students in the Nursing Department. It contains the necessary information and guidelines regarding OSCE. Furthermore, it will direct the process and will be the basis of decisions concerning the students.

Aside from this handbook, the faculty and staff are there to help. You may seek advice and ask for clarification on matters that you are uncertain about.

**Dr. Murad Alkhalailah**  
Head, Department of Nursing
