**"The Group of Twenty, or the G20, is the premier forum for international economic cooperation. The G20 brings together the leaders of both developed and developing countries from every continent. Collectively, G20 members represent around 80% of the world's economic output, two-thirds of global population and three-quarters of international trade. Throughout the year, representatives from G20 countries gather to discuss financial and socioeconomic issues. The Saudi G20 Presidency began from 1 December 2019 and will end on 30 November 2020.**

### STUDENT & FACULTY- RESEARCH COLLABORATION UNIT

**A concern of**  
**Faculty of Medicine**  
**Deanship of Scientific Research**  
**Saudi Medical Journal for Students (SMJS), and**  
**MedEdu Tabuk (MET)**

#### Vision

The vision of SF-RCU is to facilitate the development of new research initiatives for faculty and students that cross the boundaries of different colleges of University of Tabuk. SF-RCU will match student researchers with PIs of similar research interests from different faculties and vice versa, fostering collaborative research between students and teachers and create new opportunities.

#### Objectives

SF-RCU is a web-based researcher matching platform between Principal Investigators and Supervisors to Student Researchers at University of Tabuk

The Student researchers will be known as Research Assistants

PIs and Supervisors can be from other institutions and organizations

Our services include advertising, interviewing and selecting properly trained student researchers

We will create a database of student researchers in University of Tabuk willing to participate in multidisciplinary research

We will create a database of PIs and Supervisors willing to involve University of Tabuk students in research

#### Unit Members

##### Directors:

Dr. Abdullah Aldhafri, Deanship of Scientific Research, University of Tabuk

Tel: +966 56 999 6757, Email: [a.aldhafri@ut.edu.sa](mailto:a.aldhafri@ut.edu.sa)

## A REVIEW ON BLOOD SAFETY DURING COVID-19 PANDEMIC

Abdullah Hamadi, Ali Mahzari, Abdulrahim Hakami, Reema Almotairi, Razan Alhefzi, Fawaz Hamdi, Afnan Baghdadi, Gasim Dobie, Rashid Mir and Salwa Hindawi

**Link to paper:**

[https://www.researchgate.net/publication/345959018\\_A\\_Review\\_on\\_Blood\\_safety\\_during\\_COVID-19\\_pandemic](https://www.researchgate.net/publication/345959018_A_Review_on_Blood_safety_during_COVID-19_pandemic)

This review paper by Dr. Abdullah Hamadi et al. discusses blood safety during COVID-19 pandemic and the benefit using of convalescent plasma treatment. Blood donor, staff and patient safety are essential to reduce the risk of Corona virus (COVID 19) infection. There are many steps taken by countries worldwide to fight against this virus and blood safety is one of the major steps towards reaching their goal.

## Distinguished Alumni

This week our inspiring alumnus is Daniyah Salamah Alamrani.

She holds a Bachelor Degree in Medical Laboratory Science from Tabuk university, since 2016. She works as teaching assistant in Hail university. This year she did her master from medical Sciences school of university of Manchester, UK and she is planning to do her PhD also.

**Daniyah Salamah Alamrani**

Email: [Dania1slamah@gmail.com](mailto:Dania1slamah@gmail.com)

Daniyah found herself in the academic field since undergrad years because she finds teaching offers a chance to continuously get better and gives her the chance to be creative. During her master study, she was interested in the Cardiovascular diseases which was the topic of her dissertation. And she hopes to continue in this topic in her PhD study. She believes that passion is the driving force behind success and happiness that allows us all to live better lives.

And she finished her words by saying "Having a supportive network of family and friends is important to turn to for advice and encouragement whenever we face difficult times.

Edited by :Raghad Asiri.

## Faculty of Art and Design

# EDWARD MUNCH

He is a Norwegian painter who follows the Expressionist school. He was born in 1863. *He was the second of his parents' five sons. After his mother passed away from tuberculosis, a series of tragedies began for his family. His sister died for the same reason, and his older sister was admitted to the mental health hospital, and his brother died of pneumonia. In the beginning, he studied engineering, but he left it after one year, after his passion for art surpassed his passion for engineering. In a short time, he created a large series of 22 paintings called Frieze of Life, to be shown at the Berlin Gallery. Perhaps the names that he used to give to his paintings made his mental and psychological state quite clear, and his style varied greatly based on the emotional state that controlled him at the time of the painting. This group of paintings was a colossal success, and shortly afterwards Monk achieved international fame in the art scene. The success was not enough for him to live happily, he suffered from partial paralysis and did not produce great works after that. Monk moved to a country house and lived in it alone to begin landscape painting. Monk continued to paint until his death, often depicting his contrasting emotions and multiple physical ailments in his works. He died in his home country in 1944.*

حملة التوعية عن حقن الفيلر والبوتوكس يقدمها طلاب كلية الطب جامعة

تبوك في المملكة العربية السعودية، تبوك

زنگنه - زمانه

[السنة الخامسة، razankb33@gmail.com](mailto:razankb33@gmail.com)

Tel: 0532758283

تطورت التقنيات المستخدمة في عمليات التجميل بشكل كبير وخصوصاً في العشرين سنة الأخيرة، فأصبحت تجرى على نطاق واسع وذلك بسبب سهولة التقنيات الحديثة، ومن هذه التقنيات تقنية حقن البوتوكس والفييلر، قد يخلط بعض الناس بينهم ويجدون

صعوبة في التفرقة بين كيفية استخدام المادتين، ولذلك قرر نادي الجراحة قسم نادي جراحة التجميل بجامعة تبوك إقامة الحملة ووضحت فيها الفرق بين البوتكس والفييلر وكيفية استخدامهما. والتي تهدف إلى مستوى الوعي بين سكان منطقة تبوك عن الفييلر والبوتكس حيث قدمت عن بعد بمنصة بلاك بورد جامعة تبوك ، يوم السبت الموافق 24-10-2020، من الساعة العاشرة وحتى الساعة الحادية عشر مساءً ، بمشاركة 10 طالب وطالبة وبحضور أكثر من 85 زائر. وتمت الحملة تحت إشراف د/عبدالله اليوسف، وتتكللت الطالبة : وفاء الجدراوي وأعضاء نادي جراحة التجميل بكل مهام التنظيم والتنسيق؛ وبدورهم قد ساهموا في المساعدة على نشر الوعي والتثقيف الصحي حول الفييلر والبوتكس الى جميع الحضور، حيث انه كانت محاور الحملة قد تطرقت الى: الفرق بين البوتكس والفييلر، و الاستخدامات العلاجية والتجميلية، والأعراض الجانبية والمضاعفات، ونصائح بعد حقن الفييلر والبوتكس ، و من عليه تجنب حقن الفييلر والبوتكس . ومن الجدير بالذكر أنه قد أتيح للحضور طرح استفساراتهم وتساؤلاتهم وقد تمت الاجابة عليهم من قبل الدكتور عبدالله اليوسف . بهذا تكون حملة التوعية بحقن الفييلر والبوتكس قد غطت كافة التفاصيل. وقد كانت حملة ناجحة من حيث العطاء والحضور وتعدد أقسام الحملة. و من هنا نود أن نشكر سعادة عميد كلية الطب الدكتور/مرعي العمري حفظه الله إتاخته لنا هذه الفرصة القيمة وذلك لرفع مستوى وعي المجتمع ونشر التثقيف الصحي والأخذ بالتدابير الوقائية. ونوجه الشكر إلى الدكتور عبدالله اليوسف لمشاركته العطاء وأخيرا نشكر مشرفي و أعضاء نادي جراحة التجميل لجهودهم الرائعة والمميزة.
